

Caring. Careers.

Master's Level Clinician (MSW, LICSW, LMHC)

A Master's Level Clinician plays a vital role as part of our multi-disciplinary treatment team in the development of the patient's treatment plan. This role has a high degree of interaction with family members and community providers in planning for a patient's continuity of care post discharge.

Entry level positions are available for candidates who are new graduates as well as positions for more experienced clinicians who are looking to take the next step in their career. We provide structured mentorship and licensure support for early-career professionals.
